Additional mechanisms for improving the efficiency of the tourism industry in Uzbekistan

Abstract

This study is about one of the main problems in tourism sphere and possible solutions for them. This article is based on recent problems and their solution will help to further develop tourism. In improving of tourism industry, touristic zones play an important role in its development. So, there are some places which are uncultivated and, in this research, we will discuss about them.

Key words: *improving, Industry, Development, Uncultivated, archeological heritage, modern aspects*

В данном исследовании речь идет об одной из основных проблем в сфере туризма и возможностях их решения. Данная статья основана на последних проблемах и их решение поможет дальнейшему развитию туризма. В совершенствовании индустрии туризма важную роль в ее развитии играют туристические зоны. Итак, есть некоторые места, которые не возделываются, и в этом исследовании мы поговорим о них.

Ключевые слова: *улучшение, промышленность, развитие, необрабатываемые, археологическое наследие, современные аспекты*

Ushbu tadqiqot turizm sohasidagi asosiy muammolardan biri va ularni hal qilish yo'llari haqida. Ushbu maqola oxirgi paytlarda yuzaga kelgan muammolarga asoslanib, ularning yechimi turizmni yanada rivojlantirishga xizmat qiladi. Turizm industriyasini takomillashtirishda uning rivojlanishida turistik zonalarining ahamiyati katta. Shunday qilib, o'zlashtirilmagan ba'zi joylar mavjud va biz ushbu tadqiqotda ular haqida gaplashamiz.

Kalit so'zlar: obodonlashtirish, Sanoat, Rivojlanish, Ekilmagan, arxeologik meros, zamonaviy jihatlar

In today's fast-paced world, the rapid strengthening and improvement of existing ties between countries is also affecting the tourism industry. Among the countries with a deep history, Uzbekistan is also taking new steps to introduce the country to the world by developing three renaissance strategies to focus on the tourism industry. The new "Development Strategy of Uzbekistan for 2022-2026" developed by the head of our state is clearly reflected in it.

Nowadays, Uzbekistan pays great attention to the tourism industry in order to improve the economy afloat. In order to develop tourism, it is necessary to solve problems first. One of such problems is it is necessary to repair neglected facilities and protect them. Uzbekistan has many historical and Holy places that are still hidden from the world. These places are waiting for their restoration, such places can perfectly influence the development of not only tourism but also the country's economy. Their number is more than 2 000. Clear examples of such places can be "Axsikent" archeological heritage site in Namangan. Archaeological works in this site began in the 19th century but has not yet been completed. This location could have been a great tourist destination but many did not even know they had not heard about the place. What causes such a problem? First of all, the inability to inform people about the place, that is, the lack of advertising. Tourists who are visiting Uzbekistan mostly visit the world-famous places of Uzbekistan, but they do not even know about such places. There are a lot of such unknown and historical places in other regions of Uzbekistan, for example, there are such places in Khorezm, Surkhandarya and other places. If the government pays more attention to finding unknown places to develop them, make them tourist centers, improve living conditions and of course make advertising right, that is, inform more people since now the Internet is very developed, it will not be difficult, the main thing is to make advertising a lot interesting exciting such hidden places will be excellent tourist places.

There is one more big problem in tourism sphere which even the President of our country mentioned on the selector that was held recently the problem of Visa. These days, it so difficult and complicated to get visa. In order to get a visa, you need to fill out a bunch of documents that half of them do not need, it takes a very long time approximately 6 months and it is so expensive. And Uzbekistan does not have a visa for many countries. There are no visas in more than 100 countries.

This leads to a decrease in the number of tourists. In order to travel to Uzbekistan, foreigners must obtain a visa from the embassies of Russia, France and the United Kingdom. It will be expensive and the same time it is wasting of time. The best solution to this may be the visa system should be simplified, the number of embassies in Uzbekistan and other countries should be increased, and they should use visa facilitation, cost and visa facilitation methods to increase the number of tourists. Since the state has all the information about everyone's life, and even more so now in electronic form, government should create a website where you can easily get a visa without filling out a bunch of unnecessary documents and wasting time.

So, what is a mechanism? The mechanism of a car is a circuit that serves to drive it. Now there are similar mechanisms of tourism, that is, engines that drive tourism. The things which we are discuss above one of the main mechanisms of tourism industry.

As Uzbekistan wants and is becoming one of the developed countries, it is very important to start with solving the main problems. By solving the problems Uzbekistan gets experience in everything for the future. In order to develop tourism in Uzbekistan government do everything even they built university in order to get new professionals in tourism sphere with modern aspects. And this is already something in the way of tourism development.
